Subject: RE: I oppose Duke's latest rate hike for dirty energy

Dear Mr. Konigsbauer,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2013-59-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Assistant

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Stephen Konigsbauer

Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

First Duke should prove its commitment to a clean energy future. Then we'll talk about rate hikes. Paying more money for antiquated dirty energy is wrong on both counts. Please hold Duke Energy accountable for their inaction on these coal fired power plants and ask them to develop a plan for the future. The old Duke isn't up to the task. The new Duke needs apparently needs some incentive to bring them into the 21st century. Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Jacalyn Strouble
